Distinguished Award For Excellence In Maintenance

The Distinguished Award For Excellence In Maintenance is designed to recognize one person each year who has contributed the most to the Texas motor carrier industry in the field of maintenance. Every person who performs and produces results in this essential area deserves recognition.

If you have an employee in your fleet maintenance department who does a great job, take a moment to nominate him or her for the Distinguished Award For Excellence In Maintenance. A nomination form is included.

The recipient will receive a ring, a plaque, and a sportcoat. The recipient will be formally recognized during the TXTA Annual Conference.

Your participation in this nomination process is very important. The deadline for nominations is April 15, and can be sent directly to the TXTA offices in Austin.

Nominations: Nominations may be submitted by TMTA members. Nominations should be mailed to TXTA Fleet Maintenance Council, 700 E. 11th Street, Austin, TX 78701. All nominations must be returned no later than **April 14, 2017**.

Eligibility: Any person may win this award who is actively engaged in fleet maintenance (five or more units) and whose company is a member of TXTA. No person may win this award more than one time.

Awards and Presentation: The recipient will receive a ring, plaque, and sportcoat. The awards will be presented to the honoree during the TXTA Annual Conference.

Selection: A committee consisting of past recipients of the award will select the annual winner from the nominations. The TXTA Director of Safety and Maintenance will be an ex-officio member of the committee.

Qualifications: The following criteria will be considered when choosing a recipient for this award:

- participation in council meetings at the state and local levels;
- new members enlisted into the Fleet Maintenance Council
- presentations before and in cooperation with school, service, and civic groups
- assisting others in organizing fleet maintenance programs;
- cooperation between maintenance and safety councils;
- development of techniques for better and more economical maintenance programs
- self development.
